science matters book Science Matters is a rare exception-a science book for the general reader that is informative enough to be a popular textbook for introductory courses in high school and college, and yet well-written enough to appeal to general readers uncomfortable with scientific jargon and complicated mathematics. And now, revised and expanded for the first ...

Science Matters by Robert M. Hazen, James Trefil

science matters book Life Science: Ecosystems Introduction and Conceptual Flow Narrative. Producers are eaten by consumers (herbivores), which are eaten by other consumers (carnivores or omnivores). Decomposers break down producers and consumers, returning nutrients (matter) into the soil for the producers to use again.
