the time that remains a commentary on on the letter to the romans meridian -2- Household Survey Data . Both the unemployment rate, at 4.0 percent, and the number of unemployed persons, at 6.5 million, edged up in January. The impact of the partial federal government shutdown contributed to the uptick in these measures.

The Employment Situation - January 2019

the time that remains a commentary on on the letter to the romans meridian Time is the indefinite continued progress of existence and events that occur in apparently irreversible succession from the past through the present to the future. Time is a component quantity of various measurements used to sequence events, to compare the duration of events or the intervals between them, and to quantify rates of change of quantities in material reality or in the conscious ...
